

**DESCRIPTION**

StonEdge is specially formulated to give that permanent 'wet' appearance required in today's market. StonEdge also helps to increase color and luster and protects marble, travertine, granite and agglomerates from oils and water. Suitable for indoor and exterior stone applications.

**TYPICAL APPLICATION**

- Brush on with foam-type brush
- On edge for wet appearance after routing
- Light buffing or hand wiping required to remove excess materials

**BENEFITS**

- Great for obtaining that constant wet appearance
- Enhances coloring and luster of treated stone
- Low odor and ease of application makes for the perfect product for stone finishers

PHYSICAL PROPERTIES			
Composition		Liquid	NO MIXING REQUIRED
No mixing required, Use only enough to wet stone for the proper appearance		pourable	100%
Color			Transparent/opalescent liquid
GUIDE FOR USAGE			
Normal usage is 20-30 square meters of stone per liter of StonEdge, but varies on the porosity of the surface.			
For maximum effect, we suggest application to flamed, roughened or sanded surfaces that have been thoroughly cleaned and dried. StonEdge must be evenly applied using a cloth, brush or sponge. Excess material creates a superficially glossy and sticky film; use only the amount the stone can naturally absorb. Immediately buff with a clean cloth. In case of floor application, wait 24 hours before use.			

**STORAGE CONDITIONS**

Shelf life is 2 years in a dry place and in original unopened containers at a temperature between 15 and 25° C.

**HANDLING PRECAUTIONS**

*Normal health and safety precautions should be observed when handling these products :*

*Ensure good ventilation*

*Wear gloves, safety glasses and waterproof clothes.*

*For further information, please consult the product safety data sheet.*

**PACKAGING**

1 Quart Cans

**AXSON GUARANTEE**

The information presented in this technical data sheet are based on results of tests conducted under precise laboratory conditions. It is the responsibility of the user to determine the suitability of AXSON products under their own conditions before commencing with the proposed application. AXSON refuses any guarantee concerning the compatibility of a product with any particular application. AXSON refuses any responsibility for damage from any incident which results from the use of these products. The guarantee conditions are regulated by our general sale conditions.

**DATE:** September 5, 2007  
**TO:** Whom it may concern.  
**FROM:** Mike Munsell  
**RE:** StonEdge Compliance with California VOC regulations

---

California has several categories for allowable VOC in architectural coatings, dependent on use. While the customer must determine the use category for the purpose of compliance, Axson's TDS for StonEdge indicates the category "Faux Finishing Coating", and as such would be compliant with current VOC regulations in all of California. Please see <http://www.arb.ca.gov/coatings/arch/VOCLimits.htm> for further information.
